

RPG – Role Playing Games (for High Schoolers)

Many people want to play Dungeons and Dragons – or an equivalent game – and never get the chance, because pulling a group together and actually learning how to play can prove insurmountably difficult. That's especially true nowadays that podcasts like "Critical Role" have popularized the hobby among a much greater slice of the population. This is essentially a summer camp recreational activity that incorporates elements of both math and strategy, but also acting, improvisation, and collaborative storytelling. Games like this can both teach social skills and spark creative instincts.

Grades: 9-Graduating Class of 2020

Dates: Wednesdays (July 8, 15, 22, 29) 1-3 PM
