

Supplies needed:

- Either an iPad with the Procreate installed or Photoshop on a Mac or PC. The instructor will be drawing from Photoshop but most of what they can do can be done on the iPad as well. If you are working from a PC, Mac, or laptop with Photoshop, you will also need a tablet to interface with.

Just to discern, "graphics tablets" are used to interface with a laptop or desktop computer. With "tablets" refers to portable handhelds like the iPad. There are a number of options out there for graphics tablets that attach to a Mac or PC. Wacom is the most trusted brand, with the Cintiq models being the top of the line, but you can find all types and different brands in a number of affordable price ranges. As far as handheld tablets, the newer iPads have the best responsiveness. The iPad Pro 11.9" is the best and the newer models that use the Apple pen to allow for pressure sensitivity.
